

TIMELESS STYLE

ENDURING QUALITY

GRABER WOOD, COMPOSITE, AND FAUX WOOD BLINDS

STYLE AND QUALITY

ESSENTIAL TO THE STORY OF GRABER.

We use only the finest materials to create wood blinds distinguished by their high level of craftsmanship. You can select your blinds from a diverse and refined color palette to create an aesthetic that mirrors your personal taste.

If you prefer an alternative to wood, consider our selection of beautiful composite and faux wood blinds.

100%

NORTH AMERICAN

Graber uses only 100% North American hardwood in the construction of our Graber Traditions® Wood Blinds because of its light weight, consistent color, hardness, structural stability, and attractive grain.

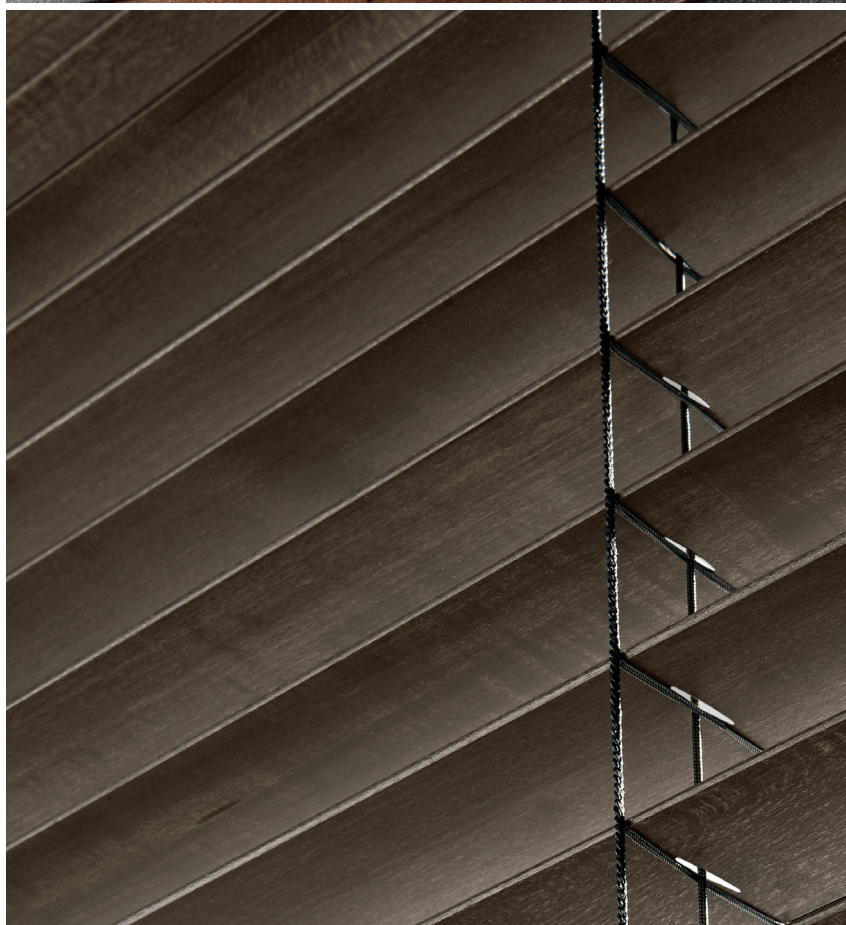

THE FINEST WOOD CRAFTED
WITH CLOSE ATTENTION TO DETAIL.

It begins in Grayling, Michigan. It's here our one-of-a-kind facility sources, dries, and manufactures first-quality basswood, crafting blind slats that are second to none in the industry.

We source our wood from sustainably managed North American forests and individually inspect each piece. We accept only those that meet our exacting standards. Using a three-step process, our experts mill, sand, and paint or stain the wood to perfection.

In your home or office, wood blinds can create an ambiance of deep warmth and compelling character.

QUALITY CONTROL

FROM GREEN LUMBER TO FINISHED BLINDS.

Our control over the quality of our hardwood is unique. It begins with green lumber, and concludes with finished blinds. At our facility in Grayling, Michigan, we slowly kiln-dry basswood to strict specifications. We do this because if moisture leaves the wood too quickly, structural change may occur. When the wood is dry, our craftsmen shape it and meticulously sand it until it is flawless.

That said, you may see natural variations in the color and grain of the wood. These are part of the inherent beauty of real wood and in no way affect the durability or structural integrity of our blinds.

To ensure our hardwood supply will be with us for generations to come, we work only with foresters who practice sustained-yield forest management. This means nearly twice as much hardwood grows as is harvested in the U.S. each year.

WOOD BLINDS

THE STATEMENT IS YOURS TO MAKE.

Hardwood blinds help determine the statement you want your room to project. Whether bold and confident, relaxed and placid—or anything in between—the versatility of our blinds allows them to work well with virtually any décor. What's more, our wood blinds provide a variable degree of light control and are available in a myriad of colors. (Turn the page, and see for yourself.)

2" Elite Wood Blinds with Cordless Lift/Wand Tilt: Rustic Golden Oak
R1030 with 3" Classic Valance and 1½" Cloth Tapes: Shadow Grey 2178

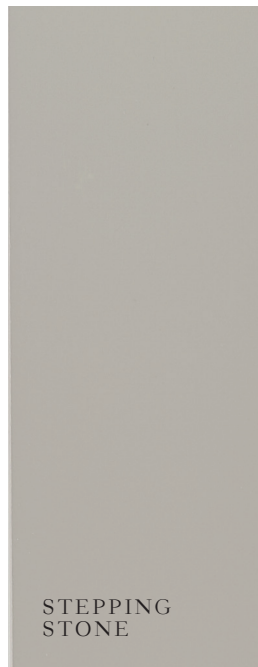

COLORS AND FINISHES

Our refined palette brings you a variety of wood colors from the on-trend grey and taupe families. Our rustic collection highlights the handsome mineral marks, knots, and burl of the wood.

COMPOSITE BLINDS

THE ANSWER FOR AN ENVIRONMENT
THAT PRESENTS SPECIAL CHALLENGES.

If you want the appearance of wood in those rooms with high humidity, consider our beautiful composite blinds. They're resilient, durable, and lighter in weight than faux wood. To help you create a coordinated look, three composite blind colors are also available in our shutters collection.

Windows: 2" Composite Blinds with Cord Lift/Cord Tilt: Silk White 2922
with 3" Majestic Valance

Doors: 2 1/2" Composite French Door Shutters with Standard L-Frame
and Rectangular Cutout: Silk White 2922

FAUX WOOD BLINDS

THE LOOK OF WOOD AT A SUPERB VALUE.

A moderately priced alternative to wood are our faux wood blinds. They approximate the look of real wood and coordinate well with other window treatments. Like our composite blinds, they're engineered to withstand the moisture of a humid climate or room.

2" Premium Faux Wood Blinds with Cordless Lift/Wand Tilt:
Moonshine 2738 with 3" Classic Valance

CUSTOM COLOR PROGRAM

YOUR CHOICES ARE ENDLESS.

If it's important your window treatments precisely match your décor, consider a custom color. We can create blinds in a color unique to you.

2" Elite Wood Blinds with Cordless Lift/Wand Tilt: Custom Color with 3" Classic Valance and Keystone (Multiple Blinds on One Headrail)

BEST-IN-CLASS SERVICE

IT'S NOT AN
EMPTY PROMISE.

When we say we offer best-in-class service, it's not simply a label we apply with little thought. Rather, we seek to give you the best experience possible. We'll treat you with care and respect as we endlessly strive to earn and keep your trust and loyalty. No one in our industry will serve you better.
